DETAILED ACTION

Claim Objections

1. Claims 29-32 are objected to because of the following informalities:

Re claim 29, claim line 7: A -- comma -- should be inserted after the term "beam". Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claim 26 is rejected under 35 U.S.C. 102(b) as being anticipated by US 5,172,002 (Marshall).

With respect to the limitation of claim 26, the reference to Marshall discloses a method of operating a metrology apparatus, comprising: a movable bar assembly/stage (14) coupled to an actuator/PZT (18) and a reference structure (20); and measuring in response to movement of the actuator, movement of the movable bar assembly (14), wherein movement of the movable bar assembly (14) is indicative of movement of the actuator (18), col. 4, lines 34-39, col. 5, lines 16-17 and 37-40.
